JAV-MAR-MO

A Delicious COFFEE ONE LB.

Edwin J. Gillies & Co
NEW YORK

Finest Quality Full Weight

W. 17

All good grocers handle Jav-Mar-Mo, or will get it when you call for it. If a grocer doesn't handle Jav-Mar-Mo and won't get it, it is because he can make a few cents more a pound on the goods he sells in bulk. If that grocer would stop to think how much more Jav-Mar-Mo he could sell with the same effort, and how much better satisfaction it would give his customers, he could not fail to see his mistake.

JAV-MAR-MO differs from other good coffees because it is ALWAYS good—something that is impossible to be sure of with coffees prepared in the old way.

The list of good grocers of this city that appeared a few days ago shows the class of trade that JAV-MAR-MO pleases.

Jav-Mar-Mo is put up in one-pound packages—a full pound exclusive of wrapper. It is sold in the whole bean, and retains the strength and aroma as originally grown, which is not the case with ground coffees, or coffees usually sold in bulk. There is no chaff or adulteration whatever about Jav-Mar-Mo—just coffee, nothing but coffee, and that the purest that the plantations of the tropics can produce.

MISDIRECTED HUMANE EFFORTS.

The Public Should Be Protected From Dogs.

From the Philadelphia Medical Journal.

Some of the good people of Washington as well as of Buffalo have lately made frenzied efforts to save dogs from the fate which the respective authorities have decreed, owing to the existence of rabies in those localities. Mammoth petitions against indiscriminate killing of dogs as well as the alleged unjustifiable confinement of these animals have been presented, and all kinds of statements concerning the matter and advice as to what to do have been made. A reverend doctor offered to pay \$2 for every dog released, while the Humane Society describes the scenes at the pounds as heart-rending, saying that it is all owing to a mad dog scare.

It would be an injustice to these good people to believe that they are insincere in their demand; they are certainly in error regarding their statements of cruelty to animals and the nonexistence of rabies in these localities. Dogs are caught, sent to the pound in as comfortable an ambulance as patients are removed to hospitals, and those on whom the death sentence has been pronounced are asphyxiated according to the most humane methods. That rabies does exist in the respective places is proved deaths occurred from this dreadful disease since last summer. The first was an eight-year-old child, who had been bitten several months previous to the outbreak of the symptoms; and as the wound had healed quickly the incident had been forgotten until again tragically brought to mind. The sufferings undergone by this little patient are described by Health Commissioner Wendt as the saddest of any that it has been his misfortune to witness during his experience as a physician. Another was an adult who had been bitten by the same dog in trying to protect the child. The third was a young man of nineteen years, of heretofore good character, who was bitten by a dog he was trying to elect from a public hall; the fourth was a lady, a member of the Humane Society and among the most vigorous in her denunciations of the alleged mad dog scare and the injustice to the brutes. This lady had a favorite pet dog which she used to bathe daily and then take him on her lap to comb his fur. He snapped at her, biting her in the breast, and she lived long enough to become the most enthusiastic convert, and to advocate the vigorous and indiscriminate extirpation of the canine species of animals.

When an epidemic of rabies reaches the stage in which it becomes a menace to the public, as well to the owners of dogs, it would be criminal on the part of the authorities to do otherwise than adopt the most drastic measures, notwithstanding the misguided efforts of a few humane enthusiasts, who apparently place more value upon brute feelings than upon human lives.

George Peabody gave between the years 1862 and 1873 the sum of \$2,500,000 for the building of model tenements for the London workmen. They have added to the fund since that time from rents and interest \$3,550,000, making the total \$6,050,000. The number of rooms provided for workmen is 11,367, which are divided into 3,121 dwellings, which are occupied by 19,157 persons. The average rent of each dwelling last year was \$1.21 a week, and of each room 20 cents.

TEMPLE OF FAME FOR WOMEN.

Object of the Bill Introduced by Representative Foster.

Mr. Foster has introduced a bill in the House, by request (H. R. 11029), to establish at Washington a pantheon for women. The bill has a preamble as follows: "Whereas every man worthy of the name loves and honors woman; and

"Whereas Lincoln, the incomparable, echoed the thought of millions of his sex when he said, 'All I am or can be I owe to my angel mother,' and yet he and his prototype, Washington, left to others the pleasure of making a worthy place for her whose memory he so fondly cherished; and

"Whereas woman's sphere of usefulness is now too enlarged to leave her good deeds unacknowledged, except in response to toasts to the ladies at annual banquets, where honeyed phrases without number are lavished upon them, but which fade from the memory with the sound of the speaker's voice; and

"Whereas gallantry suggests, and justice demands, that the men of the country should show a fitting and tangible evidence of the wisdom and worth, as well as the noble self-sacrifice in peace and in war, in pestilence and in battle, of the women of America, whose generosity and noble devotion to the cause of freedom in all our wars, as well as whose liberality in founding philanthropic and educational institutions, have made the names of Packer, Drexel and Caldwell as familiar as those of Francis E. Willis, Harriet Beecher Stowe and Julia Ward Howe; and

"Whereas one of America's great women, Helen Gould, has generously founded a Temple of Fame for Women, it is the duty of the representatives of the people of the United States in Congress assembled to rise to the dignity of the subject and to provide themselves equal to the occasion by passing the following measure."

The bill authorizes the President to appropriate five hundred thousand dollars for the purchase of grounds, lands or real estate, if none are donated, and for the purchase of erecting thereon an appropriate edifice, and fitting therefor, to be specially dedicated to, and used for, placing and exhibiting marble or bronze statues of illustrious American women, the building to be known and designated as the Woman's Pantheon of America. Each of the states, at its sole charge and expense, shall have the right to present three statues in marble or bronze for admission to the pantheon, and the District of Columbia shall have the same privilege.

METHODIST BISHOPS MEET.

Conference at Indianapolis Will Aim to Equal Lay Representation.

INDIANAPOLIS, Ind., April 27.—The first day's session of the bishops of the Methodist Church was taken up in the discussion of the conditions in the different conferences.

When approached on the subject of changes in the discipline of the church and the insertion of a law prohibiting both dancing and theater going, Bishop Warren said:

"Nothing along this line will be done at our meeting. As a matter of fact, we could not decide upon this point. The staff of bishops of the church simply represents the executive body, and we simply execute the orders of the conference."

"In the matter of the rules of the church I do not know that any important changes will be made at the general conference at Chicago, unless it will be to allow laymen \$55 votes and an equal representation at the conference. By that I mean that the change carries with it the admission to the conference of as many laymen as churchmen."

"In my mind there is little doubt that this will become a law in the church. It requires a three-fourths vote, and I think the sentiment of fully that number has been expressed in favor of the movement."

The conference, which will end tomorrow, are strictly executive.

AMONG THE POLITICAL DEAD.

Thomas Watson of Georgia Desires to Be So Considered.

ATLANTA, Ga., April 27.—Indorsement by populist conventions in several northern states of Mr. Thos. Watson of Georgia for first place on the populist ticket has caused something of a stir in political circles all over the south.

Mr. Watson had stated several times that he is out of politics, but in view of recent rumors connecting him prominently with the populist nomination, he was asked for a final declaration.

Today he made this statement: "Under no circumstances would I accept any nomination or any office. Please number me among the politically dead, and let me henceforth rest in peace."

QUEEN LANDS AT HOLY HEAD.

Thousands Witness Victoria's Return From Ireland Today.

LONDON, April 27.—Thousands of persons this morning witnessed the landing of the queen at Holy Head, where she arrived yesterday on her return from Ireland. The royal special train started southward at 11 o'clock, amid an enthusiastic demonstration. On the arrival of her majesty at Chester the mayor and corporation of that place presented her with an address.

A Tribute From Gen. Greely.

Lieut. Charles O. Pierson, in charge of the War Department telegraph office, has received the following complimentary letter from Gen. A. W. Greely, chief signal officer:

"In connection with your resignation of your commission as a second lieutenant in the Volunteer Signal Corps, I desire to express my appreciation of the fidelity and zeal with which you have performed the important and delicate duties devolving upon you in the War Department. It was a source of personal as well as official gratification to me that you personally desired to serve in the Philippines, and that you would have done so had the correspondence been such as to properly care for your family. It is a matter of regret that foreign service involves such heavy pecuniary sacrifice, and in many cases, as in your own, it deprives the army of talent and experience, which would greatly aid to its efficiency in the Philippines. The fact that Col. Allen cabled asking for you is a compliment which is not trivial.

"Wishing you success and happiness in your return to private life, I am," etc.

A Short Cabinet Session.

Owing to the absence of Secretaries Gage, Root and Long the cabinet held a short session today, transacting no important business.

Movements of Warships.

The training ship Hartford arrived today at Bahia, Brazil, falling in with Admiral Schley's squadron.

The battle ship Indiana will leave New York Monday for League Island, where she will be laid up in ordinary.

The torpedo boat Porter has arrived at New York.

To Increase Salaries.

Mr. Martin has submitted to the Senate an amendment he intends to propose to the naval appropriation bill increasing the salaries of electricians in charge of plants at the New York, Mare Island, Norfolk and Washington navy yards from \$1,200 to \$2,400 per annum.

Questions Affecting the Militia.

Adjutant General Corbin has established a new division in his office for the consideration of all questions affecting the militia of the various states and territories and placed it in charge of Lieut. Col. Thomas B. Barry, A. G. C. G. The property returned from the Philippines, where he was adjutant general on the staff of Gen. Otis.
